

McMINN COUNTY SCHOOLS • EXCELLENCE IN ACTION

Director of School: Lee Parkison

To: Mr. Kent Hoover

Date: 8-22-2019

We cannot share student information with anyone except the Parent or Guardian due to privacy. What we have attached in the email is the first warning letter sent to student. The spreadsheet shows how many incidents we have had since August of 2017. Also, in spreadsheet is listed if it was a legitimate issue or what we identify as a “false positive”. A “false positive” is when a child might be journaling or doing a report for example: on bullying, or suicide. On the ones of “self-harm or threat to others” that could be a legitimate we address in person and determine next steps. We have not had a discipline referral yet. Again, we have no emails. We do all of this by phone or in-person for anything the student might need help with. We do not archive prior years digitally unless it is part of the student school record which we cannot share. We have not had any DCS or Law Enforcement involvement on anything with use of Gaggle as of this date. It is an added safeguard for us.

Thank you.

Jill Pierce, CTO
